***DELTA FARMLAND & WILDLIFE TRUST CONDITIONAL
CEREAL HABITAT ENHANCEMENT PROGRAM AGREEMENT***

DATE _____

BETWEEN THE CO-OPERATOR: _____

AND

THE DELTA FARMLAND AND WILDLIFE TRUST, a non-profit, community based, charitable society whose mission is to promote the preservation of farmland and associated wildlife habitat in the Fraser River delta through sustainable farming and land stewardship (referred to hereafter as "DF&WT").

WHEREAS: The Co-operator and DF&WT have agreed to cost share the establishment of spring cereals for the purpose of soil conservation and wildlife habitat enhancement in the Municipality of Delta, in the Province of British Columbia. Spring-seeded cereals have the ability to re-establish as winter cover crops when residual seed is adequately re-distributed after the summer harvest. In order to ensure uniform establishment of residual grain cover crops, the combine should be mounted with a chaff spreader or hay should be tilled, and one tillage pass should be made after harvest.

THE CO-OPERATOR WILL:

1. Establish a cover crop in the current program year by re-spreading residual seed and undertaking associated management activities to ensure uniform cover after cereal harvest within the fields identified on Schedule A of this agreement. The cooperator will return this form to the DF&WT office by **October 20, 2022**.
2. Ensure cereal crop is harvested no later than **October 8, 2022**.
3. Ensure residual grain and straw is evenly re-spread after harvest by either using a chaff spreader or tedding straw if baling for hay.
4. Complete one tillage pass after harvest.
5. Ensure that any top-kill, mowing, disking, or plough down of the field does not occur before **March 31, 2023** without notification and approval by DF&WT. Please advise the DF&WT office if you plan on undertaking any field management activities between October 20, 2022 and March 31, 2023.
6. Allow DF&WT to monitor fields for wildlife use from October 20, 2022 to March 31, 2023.
7. Indemnify and save harmless DF&WT from and against any and all actions, suits, claims, demands, damages or losses, howsoever arising as a result of the establishment and operation of the Winter Cover Crop Program.

THE DELTA FARMLAND & WILDLIFE TRUST WILL:

- 1) share the cost of establishing cereal residual cover crops within the City of Delta, BC by paying \$60/acre for grain cover crops planted under the guidelines of the DF&WT Cereal Enhancement arm of the Winter Cover Crop Program.
- 2) reduce the reimbursement by the same percentage for all acreage applied for in the event that applications received by October 20, 2022, exceed available funds for the program.
- 3) make payment in late December 2022, after all agreements have been received with completed information and signatures from the Co-operator and after the DF&WT has had the opportunity to verify all the acreage applied for.

Schedule A.
